# Team Work Projects @ SoftUni

Application Process, Team Work  
Process, Examples

# Team Work Projects: The Process

- The process for working on the team projects:
  1. Students sign-up for a team work
  2. The system splits the students in teams
  3. The trainers assign a team work project
  4. The students find each other and begin work
  5. Students work on their projects
    - Assign tasks, collaborate, communicate, perform meetings, write code and documents, merge the results, etc.
  6. Perform a public defense (presentation)
  7. Asses each team member and give feedback

# Sample Team Work Projects

- Write a Wikipedia article about programming
  - E.g. "sorting algorithms", "GitHub", "C#"
- Write a console-based game
  - E.g. Snake / Tetris / Minesweeper / Falling Rocks
- Create a web site
  - E.g. a site for fun stories / fun images
- Create a JavaScript web-based game
  - E.g. Tetris / Falling Rocks / Xonix
